Highlight: November 4th Guy Fawkes Night

“THE GREAT AWAKENING REPRESENTS A TURNING FOR HUMANITY”

After ages of distortion, compassion and awareness are beginning to rise again. Those who carry the light are here to help others remember their true nature. The old parasitic energies lose power when people act from truth and love.

THE TRUTH OF THE SO-CALLED GUN POWDER PLOT = NOVEMBER 5th = FIREWORK NIGHT; GUY FAWKES – ONCE AGAIN THE BIGGEST DECEIT

What they told the world was a tale of men with a barrel of gunpowder beneath the parliament. What really happened was a theatre built to control the people’s minds.

In the early 1600’s a small circle of men/reformers, had started to question the Crown, the church and the merchants who were turning faith into a business. Their voices grew too loud so the rulers invented a plot; a perfect story of danger and betrayal – and used it to silence them. The men were

condemned. The truth buried, and the tale became a yearly ritual of fear dressed up as fireworks. Every year the crowd celebrates the burning of the 'traitor.' This is a lie, a scam, a government creation to control and play you. Celebrating something what never happened; the real explosion was in their own belief. It was a spell of obedience; renewal through sound, light and spectacle. The fire that night wasn't meant to destroy a building, it was meant to burn memory itself; to reset the population; reset the story; and keep the masses loyal.

So, when we look at that day through the light-grids lens – we see it for what it was; not a failed attack but a successful piece of emotional engineering. Once the illusion is seen, the spell is gone.

WHY NOVEMBER 5th IS A POWER NODE

The legend of the gunpowder plot already overlays November 5th with memes/themes of conspiracy, rebellion and public spectacle, because that day is so wired in the public story. It's an entry point for 'energetic triggers' – people who are sensitive feel it, even if they don't know the details.

RITUAL AND STORY POWER

It has been ritualized, just like Xmas, Easter, Thanksgiving, Valentines Day, Birthdays etc. Fires, bonfires, burning effigies all are what is/are symbolic acts feeding collective emotional resonance. In reality terms ritual is frequency coding. November 5th carries a 'template' for release, turning point, transformation.

Panic month, action month = October as the build up. (Fear, uncertainty, tension) November as the pivot = action, rupture, clarity. It aligns with cycles of the sun and cycles of society – similar to how some cultures have seasonal thresholds of change. The fire, the fireworks and the annual ritual became a spell of memory control. The population would celebrate the suppression of dissent every year without questioning why. So, the true gunpowder was not beneath the parliament floor, but in the minds of the people; detonation of emotion that reinforced obedience."
