

WHAT IS THE FIFTH DIMENSION?

A Scroll of Remembrance...

The fifth dimension isn't a place.
It's a frequency.
You don't reach it with a spaceship —
You enter it with your heart.
It begins when separation dissolves...
And you remember: all is connected.

It's where time bends,
Thought becomes creation,
And love is no longer just a feeling
It's the very fabric of reality.

You don't force your way into 5D.
You align with it.
Through presence.
Through joy. Through love.
Through gratitude. Through surrender.

You don't escape the world —
You see through it.
The fifth dimension isn't above you.
It's within you.
And it's been waiting for you remember...
